THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

The Knoxville and Ohio railroad was mortgaged at Knoxville for \$3,000,000.

John Murray Dowle, in an interview at his home in Essex, La., asserts that John Alexander Dowle is his son, and that the fact can be established by records at Edinburgh, Scotland.

Dr. W. Godfrey Hunter was notified that a meeting of the Eleventh district committee had been called by J. S. Cooper at London to take up the Edwards-Hunter contest. Dr. Hunter will not attend and denounces the meeting as a political trick. Judge W. E. Settle, of the Court of Appeals, will hear the appeal from Judge Panikher's decision granting the injunction to Edwards.

A fire broke out in the Vatican Saturday evening. The excitement in Rome was very great and the city officials entered St. Peter's for the first time since the fall of the temporal power of the papacy. Pope Pius spent some time at the scene of the blaze and aided in directing the work of extinguishing the fire. The damage is heavy, but no lives were lost.

In his annual report Commissioner Richards, of the General Land Office, says there is a large increase in fraudulent land entries. Ten thousand entries have been suspended in California, Oregon and Washington, and fifteen special agents are at work in that field. Secretary Hitchcock, of the Interior Department, in a statement regarding these fraudulent entries, says there is no truth in the report that Senators or Congressmen are involved.

Funeral services over the body of Mrs. Emma Booth-Tucker were held yesterday afternoon in Carnegie Hall, New York. Commander Booth-Tucker and others delivered addresses and a cablegram from Gen. William Booth was read. Herbert Booth, of the volunteers, was present and twice asked permission of Commander Booth-Tucker to speak, but it was each time refused.

The Chinese Government is greatly disturbed over the re-occupation of Mukden by the Russian forces, and is appealing to friendly foreign legations for aid and advice. According to a statement at Peking the Chinese officials at Mukden were ejected while their Foreign Office was negotiating on the subject with Paul Lesar, the Russian Minister.

The report of the receiver of the Shipbuilding Trust was made public yesterday. It makes sensational charges of falsification, swindling and fraud in the organization of the company and recommends that suit be brought against Charles M. Schwab and the promoters. The whole affair is discussed as "wholesale plunder."

Both parties will hold caucuses in Washington Saturday. Joseph G. Cannon will be nominated by the Republicans for Speaker of the House. John S. Williams, of Mississippi, will no doubt receive the complimentary nomination of the Democrats for Speaker.

Appellate Judge Warner E. Settle handed down a decision Monday solving the injunction restraining the clerks of the counties in the Eleventh congressional district from putting the name of Dr. W. Godfrey Hunter on the ballot as the Republican nominee for Congress. He holds that the courts have no jurisdiction to decide the controversy, that power being vested in the government authority of the party. He further holds that the name of the nominee selected by the governing committee could be placed under the party emblem at any time, provided the ballots could be prepared in time for the election. The decision is a victory for Dr. Hunter.

Fifteen new cases of yellow fever and four deaths were reported at Laredo, Tex.

The post-office deficit for the year ending June 30 is estimated at \$8,613,709.

Congressman Gaines, of Tennessee, says the race question is one of the main issues in Kentucky.

The threatened strike of workmen on the World's Fair grounds at St. Louis have been averted.

D. M. Parry, of Indianapolis, was elected president of the Citizens' Industrial Association of America at Indianapolis.

The impression prevails that Edward L. Wentz, the missing young Philadelphia millionaire, has been kidnapped and is being held for \$100,000 ransom.

Two tickets were reserved at an Atlanta theater Wednesday night for E. L. Wentz, which is the name of the missing Philadelphia millionaire.

The copper miners have requested the Governor of Montana to call an extra session of this Legislature to settle the trouble now prevailing in the mining districts.

The Cuban Congress met Monday at Havana in regular session. President Palma's message was read. It dealt at some length with the relations between Cuba and the United States.

Chairman Jones, of the Democratic National Executive Committee, approves the action of Senator Gorman in making the race issue the paramount question in the Maryland campaign.

The jury in the case of Sam Parks, the walking delegate, charged with extortion, returned a verdict of guilty at New York yesterday, after deliberating twelve minutes and taking two ballots.

The Foreign Office at St. Petersburg declares the re-occupation of Mukden by Russia was not connected with the question of commercial ports, but was because the Chinese Governor refused to comply with certain demands.

Maj. George Derby, who has charge of the river and harbor improvements at Louisville, has been ordered to St. Paul. He will be succeeded by First Lieut. Harry Burgess, of the First Corps of Engineers.

An infernal machine, timed to explode two hours after its delivery, was left at the home of Peter Karaghiann, the American editor, in Boston. The machine was intercepted and was destroyed by a policeman.

Sixteen persons were killed and more than fifty injured in a collision between a Big Four special and a freight train in the suburbs of Indianapolis Saturday forenoon. The special train carried 954 people, among them the Purdue University football team on the way from Lafayette to Indianapolis, for the annual game with Indiana University, which was to have been played in the afternoon. There is confusion as to what caused the accident, each engineer insisting that he had the track and did not know of the other train. A deep cut prevented a clear view of the track.

PUPILS MADE BIG MAP

California Students Show Interesting World's Fair Exhibit.

COUNTY DONE IN PAPIER MACHE

One California County Raises a World's Fair Fund of \$20,000 and Devotes \$3,000 to Showing Her Educational and Social Advantages.

Alameda county, California, will make an exhibit at the World's Fair that will be a credit to many a state. The supervisors of that county have appropriated about \$20,000 for the purpose, and of this amount \$3,000 will be used in installing the educational exhibit. F. O. Crawford, superintendent of schools in Alameda county, will have charge of the exhibit, and he will personally conduct the installation and will remain in charge during the exposition.

Alameda county is an irregularly shaped tract, comprising about 1,200 square miles, being about the size of Rhode Island, and with a population of 100,000. It is in the extreme western part of California, and San Francisco bay forms parts of its western boundary. The assessed valuation of the property of the county is \$100,000,000, and the school fund raised last year was \$629,000.

One of the striking features of Alameda county's educational exhibit will be a papier mache relief map of the county, 14x20 feet, made by the pupils of the public schools. The map will be carefully compared by the county civil engineer, and at the close of the Fair will be returned to Oakland, the county seat, where it will be placed in the room of the county surveyor and kept as the official map of the county.

The map will be inclined against the wall and every hill and valley will be developed. The highest part of the map will be about 14 inches above the sea level. Every railroad and public road in the county will be shown. Every schoolhouse, every public building, each township and city and village will be shown, and a perfect scale maintained. The school children will do the actual work of forming the map, but the coloring will be left to the county surveyor. The site of each schoolhouse will be marked by a small photograph of the school building that occupies it. Large photographs showing the buildings in detail, will be contained in books, to which those who care to see may have access.

Another feature of interest will be the series of reproductions of Alameda county school rooms. Mr. Crawford obtained floor space in the Education Palace for this exhibit and will build a room 30x40 feet. At one time it will be fitted up to represent the kindergarten room in a particular Alameda county school. The identical furniture will be installed, the maps and charts from the walls taken from their places and placed in the World's Fair school room. In fact it will be a perfect reproduction, so that one may see exactly what a certain room in Alameda county, California, is.

The furniture and decorations will be changed at intervals and during the Exposition a type of every school in the county will be shown. Specimens of the work from all the schools will also be shown.

In Alameda is situated the University of California, at Berkeley, the largest in the state, with 3,000 students. St. Mary's Catholic College, and Mills' College for Young Ladies, are all important institutions, and it is expected that each will make individual exhibits.

Alameda county is proud of her school system. The buildings are all up-to-date, and many of the county schools were erected at a cost of \$15,000 to \$20,000 each.

World's Fair News.

—Miss Mary Peckinpaugh, of Peckinpaugh, Ky., is to exhibit some of her handsome embroidery at the World's Fair.

—An interesting exhibit of cotton is to be made from Kentucky at the St. Louis Exposition. It has been gathered by Judge H. M. Kearby and Clerk S. D. Lupton of the Fulton county court. Samples of this product will be shown from the earliest period to the stage after picking.

—Exceptionally fine specimens of minerals are already reaching the storage warehouse of the Kentucky Exhibit Association in Louisville for the exhibit at St. Louis next year. Among the shipments received are two barrels of coke from Bell coal, from Crittenden county, Ky. The coal was sent to the Ashland Iron & Mining Co. at Ashland, and there coked. Judge T. T. Gardner and Editor Tom Pettit of Bardwell have sent in a box containing various minerals from Carlisle county, which are being analyzed and assayed at the State College at Lexington.

Latest information as to Kentucky's Part in the Great Exposition.

—In Kentucky's display of fruit at the St. Louis Exposition next year, there will probably be sent bunches of grapes grown from the seed which came from the city of Jerusalem and which was supposed to be of the same variety as those found by the spies of Moses. Mr. M. F. Johnson of Louisville received a seed from the grape mentioned, it being brought in by a friend from the Holy City, and planted it in Louisville soil. It grew and bore fruit. The grape is called the "Right Temple" and is a medium size, reddish color, thin skin and sweet.

Recovered Speech and Hearing.

Messrs. Ely Bros.—I commenced using your Cream Balm about two years ago for catarrh. My voice was somewhat thick and my hearing was dull. My hearing has been fully restored and my speech has become quite clear. I am a teacher in our town.

L. G. BROWN, Granger, Ohio.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts. or mailed by Ely Bros, 56 Warren Street, New York.

Count Lamsdorf, the Russian Foreign Minister, arrived at Paris yesterday for a series of important conferences with M. Delcasse, the French Minister for Foreign Affairs. The far Eastern situation and affairs in Macedonia will come up for discussion.

A Good Name.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are right named because they give strength and energy and do their work with perfect ease.—W. T. Easton, Boone, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effectual. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by The Louisa Drug Co.

The convention of the Mississippi River Improvement and Levee Association at New Orleans adjourned yesterday. Resolutions were adopted favoring the control of the levee system by the Federal Government and endorsing the movement for improving the Ohio river.

A Scientific Discovery.

Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by The Louisa Drug Co.

The Republican State Central Committee, by a vote of eight to five, decided that J. Sherman Cooper is not the governing authority of the party in the Eleventh district. This action was a decided victory for Dr. W. Godfrey Hunter. An effort to try the case on its merits was voted down. The result of the committee meeting was a decided victory for Dr. Hunter over Mr. Edwards.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind. who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 118 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by The Louisa Drug Co.

Train wreckers derailed an east-bound Santa Fe train at Apishpan creek in Colorado and thirty persons were injured, including Harold Koelberg, of Middlesboro, and J. L. Reinhardt and wife of Owensboro.

W. A. Herren of Finch, Ark., writes, "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." Sold by Louisa Drug Co.

THE FORESTRY EXHIBIT

From Kentucky Will Occupy a Most Prominent Place

AT THE ST. LOUIS EXPOSITION

Assigned Space Near Center of Forestry Building and on Two of the Main Aisles—Chairman Struck Issues Instructions For Preparation of Samples of Logs, Boards, Etc., For the Exhibit.

On two of the main aisles and almost in the center of the Forestry and Fish and Game Building at the World's Fair in St. Louis next year will stand Kentucky's display of her wonderful forest resources and lumber interests. This space has just been assigned to the Kentucky Exhibit Association by Mr. Tarleton H. Bean, the chief of the Department of Forestry of the Exposition. As is readily seen, the forestry display from this commonwealth will occupy an enviable position, and it behooves those interested to make the display one worthy the space given it. To this end Mr. A. N. Struck, Chairman of the Forestry Exhibit Committee of the Exhibit Association, and Mr. William Bos, Field Representative, are issuing their plans.

Chairman Struck has just issued a circular, giving instructions to the logging camps, planing mills and forestry industries of the State, as to how they can best assist him in making the display a success. Logs cut eight feet in length are to be shown. This length has been decided on so the samples

(Sketch showing how log samples are to be divided in Kentucky's Forestry Exhibit at the World's Fair.)

will be worth something after the Exposition. The ends of the logs will show cross cuts, while in the middle a section will be cut out about a half foot deep, three feet across at the top, rounded down to two feet across at the bottom, which will show the lateral cut as well as the beauty of the grain. Mr. Struck states that all logs must be cut to eight feet, and the diameter should not be less than 24 inches, if possible to get same.

In addition to the logs, there will be board samples, of which the accompanying sketch will give an idea. These board samples will be four feet long by two feet high by four inches thick, and will be partly finished and partly unfinished, so as to show the wood in its natural and its finished state.

The method to be followed by the Kentucky Exhibit Association in displaying samples of the State's forestry products and resources is right up-to-date, being recommended by government experts as being the most economical and best plan yet found. Mr. Struck announced that arrangements are to be made to store the logs and board samples for the exhibit in two or three convenient places in different parts of the State. Here his committee will have certain men to prepare the samples so that all shall be finished in the same way.

Besides the logs and boards, there will be shown in the Kentucky space all forms of manufacture from the forest industries. In view of this fact it is hoped by the Exhibit Association that many more lumber firms and corporations and manufacturers will subscribe to the fund being raised to defray the expense of the forestry exhibit, along with the erection of the Kentucky Building and the exhibits to be made in other departments of the exposition. The contributions thus far received range from \$25 to \$100.

WILL STUDY THE WORLD'S FAIR.

Prominent West Virginia Educator Requests Teachers to Be Posted on the Exposition.

Hon. Thomas C. Miller, state superintendent of the public schools of West Virginia, has made the World's Fair of 1904 a feature of every teachers' institute held in the state during the summer of 1903. Institutes are being held in every county and Mr. Miller has caused one afternoon in each week that the institute is in session to be devoted to a study of the World's Fair.

The following is the subject as outlined by Mr. Miller for study and discussion:

- "The Louisiana Purchase Exposition."
- "The Site."
- "The Plan of the Grounds."
- "The West Virginia Building."
- "How Shall West Virginia be Represented Educationally?"

As soon as the West Virginia school teachers saw the institute program many of them addressed letters to the Publicity Bureau of the Exposition and received literature which furnished this required information. The school teachers of the state are becoming fully informed upon the World's Fair and short talks will be given on the Exposition at certain hours during the school year.

Some of the leading educational institutions of the country advertise, as a part of the course, a systematic study of the World's Fair.

TWO STATE SENATORS ENDORSE PE-RU-NA.

HON. J. H. SAUER.

Hon. J. H. Sauer, State Senator from Douglas Co., to the Nebraska Legislature, writes from Frank's Hotel, Omaha, Neb., as follows:

"Having tried Peruna I can commend it to all as a great tonic and particularly good as a remedy for catarrh."

—J. H. SAUER.

Honorable Patrick Kennedy, Member of the Massachusetts Legislature, writes the following letter from the House of Representatives, Boston.

Dear Sir:—"I have no hesitation in saying that after having tried dozens of other remedies without relief, I owe my perfect health and clear voice of today to Peruna. I know it to be a cure for indigestion and its attendant affliction, nervous debility. For the six weeks that I was on the platform through the recent campaign I used Peruna regularly, and although I spoke two and three times each day my voice never failed me. I know that Peruna is a reliable cure for bronchial troubles."

—P. J. KENNEDY.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Judge Faulkner in a lengthy written opinion handed down at Manchester granted a permanent injunction against the County Clerk, restraining them from placing the name of W. Godfrey Hunter on the ballots in the Eleventh district as the Republican nominee for Congress. Dr. Hunter gave notice that he would move before Judge Settle, of the Appellate Court at Bowling Green, Monday to dissolve the injunction.

The Best Remedy For Croup.

(From the Acheson, Kan. Daily Globe.)

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and told, but more modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by A. M. Hughes.

The Chinese Minister at Washington is making a strong effort to interest Secretary Hay in China's behalf in the Manchurian troubles. The events at Mukden are not pleasing to Washington officials, but no action will be taken so long as the United States secures and retains trade in Manchuria.

Low One-way Settlers' Rates to the Northwest and California.

From September 15 until November 30, 1903, the Burlington makes very low one-way colonist rates to California, Oregon, Washington, Idaho, Montana. The reduction is from 25 to 40 per cent. from the regular rates.

The Way to Go.

The Burlington, with its strong main lines and free chair cars, best reaches the West and Northwest via Denver, Billings or St. Paul.

"The Burlington-Northern Pacific Express" is the great daily through train with chair cars and tourist sleepers via Billings, Montana, to Puget Sound and intermediate points.

To California.

The Burlington's weekly personally conducted California excursions in through tourist sleepers are just the thing for coast tourists and settlers. The route is Denver, scenic Colorado and Salt Lake.

Home-seekers' Excursions.

These are run the first and third Tuesdays of each month at approximately half rates for the round trip.

HIGHEST PRICED EGGS.
Are Whoppers and Cost \$10,000 a
Dozen—Form Unique World's
Fair Exhibit.
Eggs 18 inches in narrowest circum-
ference and nearly two feet long, that
sell in the market at the rate of \$10,000
per dozen, will be on exhibition at
the World's Fair at St. Louis in 1904.
These eggs belong to the United States
government, and they are now in the
custody of the oologist at the National
Museum in Washington.
The latest addition to the govern-
ment's reptile specimens in the egg line
comes from the island of Madagascar,
in the Indian ocean, and is said to be
the largest egg ever discovered. It was
bought by an American scientist in

SAMUEL P. JONES,
Chairman Manufacturers' Committee,
Kentucky Exhibit Association.
Paris and was forwarded to Washing-
ton. The government oologist said
that the egg was that of the Aepyornis
titian, a bird of the quaternary epoch,
more gigantic even than the Aepyornis
maximus. The monster egg was
excavated on the island of Madagascar,
where it had lain for thousands of
years. The huge shell, an inch thick,
and weighing many pounds, is smooth
and white and has probably not
changed in general appearance since
it was laid, in prehistoric times.
When this egg is shown at the
World's Fair it will be placed beside
the eggs of the humming bird, the
ostrich and the domestic fowls for
comparison.

Scientists claim that Uncle Sam,
when his representative bought this
incomparable specimen in Paris for a
trifle less than 2,000 francs, got an un-
usual bargain. Eggs even smaller than
this have sold at the rate of \$6,000 to
\$10,000 per dozen. The same scientist
predicts that these ancient eggs will
increase in value, and cites the price
of the eggs of the great auk. Al-
though this bird was a pterid in com-
parison, and has been extinct less than
60 years—Audubon having seen one in
1844—its eggs are worth \$2,000 each.
There are about 80 known specimens
of the great auk's eggs. The egg of
the Aepyornis is believed by many
writers to be that of the roc, mention-
ed in the Arabian Nights, and long
thought to be fabulous.

Besides these monster eggs found in
recent explorations on the island of
Madagascar enough bones of this great
bird have been found to enable paleon-
tologists to form a more definite con-
ception than ever before of its size. A
section of the tibia-tarsus nearly 100
centimeters long, a section of a man-
dible 170 millimeters long, portions of
the skull and other bones confirm
scientists in their estimates that the
Aepyornis towered above the dinosaurs.
A skeleton of the latter in the Nation-
al Museum shows that it was larger
than the modern horse. That the
Aepyornis maximus was still bigger,
and that the Aepyornis titian, whose
egg is the most amazing thing in
ology, was even more gigantic than
its enormous kindred, is proven by the
late Madagascar excavations.

The eggs and the bones of this mon-
strous bird of the time of Shalud the
Savior will be a feature of the gov-
ernment's exhibit at the World's Fair.
Six Indians are believed to have
been killed in the fight Saturday
at Lightning Creek, Eastern
Wyoming, in which Sheriff Miller
and Deputy Fossenberg were killed.
There is an unverified report of
a second battle in which ten
Indians were killed and eleven
others captured.

BUSSEYVILLE.
Our Halloween people did the
riot act to the letter, and as a re-
sult Webb is nursing a broken face
by trying the witch manner of
circling through the air in ancient
fashion, we are told.
Carl was hinged to a telephone
pole while the moon beams played
checkers on the back of his coat,
Fairy and Ivory became imprison-
ed in the chicken pen for a space
of time, and had to pay a hand-
some ransom for their release.
Considerable advertising was
done on a cheap scale and the old
cow of pearls, being a nice roan,
suddenly found herself a fine
"cherry red." Some chickens
changed roosting places, a fine lot
of patent hair oil was on the
market and Henry is the patentee.
Russell C. Workman, one of
our gallant young men, is now con-
fined to his room with a severe
wound in the leg as a result of
an accidental discharge of an old
pistol, which was not loaded, of
course. The wound, though pain-
ful, is not necessarily dangerous.
Laura Webb, a victim of typhoid
fever, is seriously ill, while Miss
Eliza Burchett is slowly improv-
ing. Other sick folks are steadily
improving.
George Pickle has sold his farm
to Luther Pigg and will move to
Louisiana within a short time.
Rev. L. B. Hutchison, of Catletts-
burg, was the guest of our Sunday
school last Sunday, having attend-
ed the funeral rites of Mrs. Addie
Webb, of aidge, Saturday eve-
ning.
Rev. Cheap filled his pulpit here
last Sunday eve, the hour of ser-
vice having been changed from
Saturday night and Sunday morn-
ing to Sunday afternoon and Sun-
day night.

Disastrous Wrecks.
Carelessness is responsible for many
a railway wreck and the same causes
are making human wrecks of sufferers
from Throat and Lung trouble. But since
the advent of Dr. King's New Discovery for
Consumption, Coughs and Colds, even
the worst cases can be cured, and hope-
less resignation is no longer necessary.
Mrs. Lois Cragg of Dorchester, Mass.,
is one of many whose life was saved by
Dr. King's New Discovery. This great
remedy is guaranteed for all Throat and
Lung diseases by A. M. Hughes druggis-
tist, Price 50c, and \$1.00. Trial bottles

DAVELLA
Several people from this place attend-
ed the grand rally and horseback pa-
rade at Inez, Oct. 24th, and report a
good time. The best feature of the ra-
ly was the music given by the Louisa
Band.

The show which was held here Tues-
day night by Jarrel Bros. was a grand
success.

J. P. Delong and Wells Ward made a
business trip to Pike a few days ago
and while there purchased the farm of
J. S. Panley.

James Howard, Jr., is improved from
a wound which he received a few days
ago by falling on an ax.

Mrs. Emma Meadows, of Linbark,
passed here Friday enroute to Inez.

James Delong attended church near
the forks of Daniels creek Sunday.

James Ward and Johnnie Pelphrey,
of Inez, have been employed at the
mill of S. A. Pelphrey for the past few
days.

Miss Lucinda Riffe, who has been
visiting relatives at Ceredo for the past
few months, has returned home.

Lafe Goble passed here Sunday en-
route to Odds.

Misses Vadie and Ida Jones, who
have been visiting relatives on Stafford
fork for some time, have returned home.

S. A. Pelphrey will move his saw and
grist mill to Riley Prince's farm in a
few days.

W. G. Wells (King's Willie) was vis-
iting his sister, Mrs. J. P. Delong Sun-
day.

Misses Josie Ward and Della Rummels
were here last week.

Franklin Perkey has moved to White-
house.

Johnnie Grace, of Jones branch, is in
the cross-tie business.

J. P. Delong and wife were at Inez
Monday.

Mrs. U. G. Pelphrey, who has been
on the sick list for a few weeks, is much
improved.

Lawrence Delong is visiting relatives
here.

George Butcher and wife visited at
Inez Monday.

Henry Clay, of Williamson, is visit-
ing relatives near here.

James Delong has been hunting for
the past few days. He says squirrels
are plentiful.

Miss Jennie Williams left Monday
for Inez, where she will visit for a few
days.

George Butcher is preparing to build
a new house.

Martin Wells, of East Point, passed
through here last week enroute to
Greasy creek.

David Delong and wife, of Delong,
attended the speaking here last week.
Charles Venters has gone to Matewan,
W. Va.

Thomas Buskirk and son, of Delong,
passed here Monday enroute to Inez.

DEMOCRATIC.

Kentucky Gives Old Time Majority of 20,000.

MARYLAND AND NEW YORK CITY GO DEMOCRATIC.

Kinner and Waugh Win by Large Majorities, and Lawrence County is in Line for Entire Ticket.

The election last Tuesday proved
a Democratic landslide everywhere
except Ohio, where it slid
the other way by a record breaking
majority.

Kentucky has elected the Demo-
cratic State ticket by 20,000 ma-
jority, and the Legislature is
overwhelmingly Democratic.

Louisville went Democratic by
more than 5000 majority.

Judge Kinner is re-elected Cir-
cuit Judge in this district by a
majority of about 750. The coun-
ties of Morgan and Elliott gave
him a majority of 1370, and Law-
rence 58. Boyd won only 250
against him.

In the up-Sandy district A. J.
Kirk is elected Circuit Judge, and
John F. Butler Commonwealth's
Attorney. Both are Republicans.

Johnson county gave a majority
of about 900 for the Republican
State ticket and 800 for Kirk.
Martin county went Republican
between 500 and 600. Pike county
gave a Democratic majority of 187.
Floyd and Knott gave good Demo-
cratic majorities, but the figures
have not been received.

Major D. J. Burchett, Republi-
can, is elected to the Legislature
from Boyd and Lawrence counties
by a majority of 210.

Lawrence county gave majorities
to all Democratic candidates, rang-
ing from 58 to 166. Complete re-

ULYSSES.
The Freewill Baptist quarterly
meeting was held at the Walnut-
grove church the 4th Saturday
and Sunday. There were several
ministers in attendance. They de-
livered some excellent sermons.

Rev. Jed Borders and wife, of
Paintsville, and Rev. Naaman
Borders, of East Lynn, all former-
ly of this place, attended the
quarterly meeting.

Mr. and Mrs. Virgil Prose, of
Chestnut, visited their parents at
Inez Saturday and Sunday.

Rev. J. C. Kazez is visiting his
brother H. W. Kazez and family.
Mrs. Lizzie Ward visited friends
at this place last week.

Miss Clara and Master Roy
Bellomy, of River, visited their
cousins Saturday and Sunday.

Mrs. Susie Liby and Miss Julia
Austin, of Hampton, are the guests
of friends here.

Zona Hannah is on the sick list.
Mrs. N. A. Borders, of Borders
Chapel, is visiting her daughter,
Mrs. Mary Auxier, of East Point.

Mrs. Joe Borders has spent a
week visiting friends at East Point.
Bas. Castle, of Georges Creek, is
selling out and preparing to move
to Warfield.

Mrs. Robert Boyd, who has been
sick for a year or more, is very
low with consumption. She is ex-
pected to live but a short time.

On the 26th the angel of death
entered the home of Sanford
Chandler and wife and took from
their fond embrace little Roy, their
two-year old son, who fell a victim
to croup. Weep not, dear parents,
your little Roy on whom so much
affection was bestowed during his
brief life is done with suffering.

Weep not as those who have no
hope. But in the language of the
the Psalmist say, "Although our
child can never return to us we
will go to him for he is now "safe
in the arms of Jesus, safe on his
gentle breast, There by his love
o'er shadowed sweetly your loved
one is at rest," and will meet you
at the pearly gates with more
rapture and delight than he ever
did here. Although your hearts
are sad and your home is desolate
and at the table there is a vacant
chair, such sorrows can never enter
the bright home where your little
one has gone. The bereaved par-
ents, brothers and sisters have the
sympathy of all.

Doesn't Respect Old Age
It's shameful when youth fails to
show proper respect for old age, but
just the contrary in the case of Dr.
King's New Life Pills. They cut off
maladies no matter how severe and irre-
spective of old age. Dyspepsia, Jaun-
dice, Fever, Constipation all yield to the
perfect Pill. 25c. at A. M. Hughes

FALLSBURG
The school teachers' association
that met here last Saturday was
quite interesting, although Prof.
Ekers could not attend on account
of sickness in his family. But al-
most all of the teachers present
took an active part when their
names were read from the program
as it was published in the News.

The most interesting part of the
program was the debate of the
question "Resolved, that illiterates
who arrive at the voting age after
the year 1908 should not be al-
lowed to vote." Eli Sloan, ex-Judge
Thompson and John Shortridge
are not school teachers but were
chosen to speak on the affirmative
of this question, and there were
about six or seven on each side,
each limited to ten minutes; and
after an earnest and able discus-
sion the judges decided in favor of
the affirmative. So the illiterates
would better begin to study.

All the Democrats are glad to
know that Beckham is elected and
that Fall-burg gave him 87 ma-
jority for Governor, and all the rest
of the Democratic candidates a
very good majority. The Republi-
cans that were handling their can-
paign fund were scouring the woods
around Fallsburg with their elec-
tion whisks the night before the
election, but I guess they failed to
get many to vote their ticket.

TORCHLIGHT.
Torchlight is building up. There
is a good school is going on with

First Number of Lecture Course.

An audience that completely filled the Masonic Opera House listened with rapt attention to the reading given by Miss Ellen James last Friday evening. She rendered "Mrs. Wiggs of the Cabbage Patch," and a monologue entitled "The Coming Out of Miss Cummings."

Many of those present have heard some of the best readers and impersonators in the country, and all pronounce Miss James an artist in her line. Not only does she possess rare ability, but it is evident that she has been fortunate in having correct training. The disposition so common among readers to over-do the characters and render them unnatural seems entirely wanting in her case. Indeed, the natural manner employed in all her work is the secret of its chief charm. The many characters of the famous Kentucky story of Mrs. Wiggs were faithfully portrayed, with all their broad humor, deep pathos, and vivid life pictures, the plot of the story being all the while carried along in a thoroughly connected manner.

The monologue following the principal number on the program was admirably rendered and furnished much amusement for the audience.

Miss James is quite young and this was her first appearance outside of her native State, Ohio. She has a promising future.

The lecture course committee, of which Prof. Holster was the organizer, is much encouraged by the patronage with which the first number was favored and by the manner in which the performance was received. Another attraction will be announced soon and it is the intention to continue them throughout the season if sufficient interest is exhibited by the public.

Speaking of the marriage at Ironton last week of Walter Riley and Miss Clara Cooksey, mentioned in our last issue the Catlettsburg Press says:

"It was an elopement and a very secret one. Miss Cooksey being so young, was not allowed to 'keep company' with the opposite sex. There were no special objections to Mr. Riley, who was six years her senior, but the law was against 'everybody in general, no one in particular.' Miss Cooksey's parents knew nothing whatever of the intended marriage, not even being aware that their daughter had more than a passing acquaintance with the young man, so Sunday afternoon she left home, presumably to go to church. However, she met Riley and the two went to Fallsburg where they remained over night with some friends. Monday morning they took the O. & B. S. train and came to this city from whence they went to Ironton and were married. Returning here yesterday afternoon the young couple went up Sandy on the evening train, to receive either the blessing or scolding at the parental hearth. Let us hope it will be the former, and congratulations."

There has been a request from the National headquarters of the W. C. T. U. that all members of our Union meet and petition the Christian God for advancement of the temperance cause all over the world, and His special blessing on the National Convention which meets November 13th, at the 9th Street Baptist Church, Cincinnati.

1, your President, call this Union in devotional service to be held on Thursday afternoon, Nov. 12th, at 2 o'clock, at the Baptist Church, asking God's blessing on the Union throughout the world. All Christians are specially invited.

JOSEPHINE RICE.

Affliction has fallen heavily upon John W. Bradley, one of the most worthy citizens in our county. Last June he became the victim of a severe type of dysentery, from which he has not yet recovered sufficiently to work. Since then two of his sons and a daughter have been attacked by typhoid fever and two of these cases are now quite severe. Not only has the season and crop been lost to him, but the expense caused by illness has been heavy. We hope they may all be speedily restored to health.

We are sorry to learn of the continued illness of John Darnon, one of the many victims of typhoid fever in the Madge neighborhood. Since the fever has abated he has made very slow progress toward recovery, but it is sincerely hoped that more rapid improvement may soon become apparent. He is an excellent citizen and all who know him are interested in his recovery. His father-in-law, John E. Frasher, is now able to be out, after a long siege from typhoid.

PLEASANT EVENT

Gov. Beckham's Visit to Louisa Last Friday.

Gov. J. C. W. Beckham came to Louisa by special train last Friday, according to appointment, except that it arrived here about an hour earlier than was scheduled. At 8:40 the train rolled into the station and was greeted by an enormous crowd, which sent up cheer after cheer. Music was furnished by the Louisa Cornet Band.

The Governor was just sitting down to eat his breakfast when the train arrived; the curtains of the Pullman car were drawn and the people could not see within the car. There was a cry for the Governor, but he was advised to eat his breakfast before going to the courthouse, where the speaking was to take place.

"I'll not sit here and allow those people to wait for me out there," replied the Governor.

"That's all right; eat your breakfast, Governor," said some one aboard the train.

"No sir, I shall not eat breakfast until I have filled my appointment here," said the Governor. "These good people have driven miles to get here, and if they do me honor to come I can do without my breakfast to meet with them."

The members of the Governor's party were struck so forcibly by his words that they clapped their hands. Gov. Beckham left the car and did not get his breakfast until 10:30 o'clock.

These facts were related by a gentleman on board the train.

The crowd was composed of men, women and children and all joined heartily into the welcome. A rush was made for the courthouse, and the Governor and his party were escorted there by the local committee. It was at once evident that the courthouse would not hold one-half the people, so the speakers went to the band stand near by and from there addressed the large assemblage.

Gov. Beckham was introduced by Capt. F. F. Freese in a few words so well chosen and delivered that it has brought him many congratulations. When the Governor stepped forward a cheer went up that told unmistakably the great admiration which the crowd had for him. He then entered upon a talk of twenty-five minutes, throughout which he was given the closest attention. He is an easy, graceful, and pleasing speaker. His voice is full and musical and his well rounded sentences were well delivered. In the limited time at his disposal he could touch upon only a few of the issues, but he made many points that called forth applause from his hearers. He indulged in no abuse in his speech and made a very favorable impression.

Oliver James, the big Congressman from western Kentucky, followed in a short speech in which he whooped up things in his characteristic way.

Eph Lillard, Warden of the Frankfort penitentiary, was present and complied with the request to sing a few words of "Trouble in the Land," which he and Bob Franklin have rendered so often down in the central part of the State.

By this time the train was due to leave and the distinguished party got aboard and departed. The Governor shook hands with hundreds of people while here.

Notwithstanding the early hour, there were people present from all parts of the county, and some from Martin and Johnson counties. Enthusiasm ran high, and altogether it was a big day. It was the first visit of a Governor to Louisa.

W. A. Young, of Morehead, began speaking in the court room immediately after the departure of the Governor. The large room was packed and jammed, and a great many people who wanted to go in were obliged to remain outside. His speech was one of the best heard here for a long time. It was persuasive, yet vigorous. He dealt with national and State issues in a fair, convincing, and entertaining manner. The crowd was enthused and highly pleased with the effort.

The Democrats were very anxious to have our popular Congressman, James N. Kehoe, here last Friday to make a speech, but he had previously accepted another engagement for that day. His time was filled for quite awhile previous to the election, the demand for his services being very strong.

The friends of Mrs. Cora Abbott Robertson here at her home will no doubt be very much surprised to hear of her marriage to Mr. Robt. R. Robertson, which occurred in Washington, D. C., on Oct. 28th. They are now quartered at the Hotel Manassas, at Manassas, Va. Mrs. Robertson has been in Washington City since the death of her first husband, filling a position in the government printing office. Mr. Robertson is a prosperous young Virginian. The wedding was a very quiet affair. The News extends its best wishes.

Death of Thos. M. Hazleton.

Our people were very much surprised and shocked Sunday morning by hearing of the death of Mr. Thomas M. Hazleton, which occurred at 6 a.m., at the residence of his son, Mr. George L. Hazleton.

While his condition for a day or two previous had been considered serious it was not thought that the end was so near. For several months he had suffered from stomach trouble, which is said to have been cancer of the stomach.

Mr. Hazleton had celebrated his 70th birthday on the Monday previous to his death.

A number of guests were present at the dinner served in honor of the occasion. He came down stairs that day, but was not down after that.

The body was taken to Cincinnati Tuesday for burial, accompanied by the widow and Miss Laura, and Mr. and Mrs. G. L. Hazleton and daughter Miss Myra. John Hazleton and Mrs. Vinton, the other son and daughter of the deceased, joined the family at Cincinnati.

Mr. Hazleton was a gentleman of refinement and exemplary life and habits. For more than a year he and his estimable wife have lived here with their son. Previous to that, they were residents of Cincinnati, where they were highly esteemed members of a large circle of good people. During their residence here they have formed friendships and won the esteem of all with whom they have come in contact.

Deceased is survived by his wife, two daughters and two sons. Geo. L. is connected with the U. S. Engineer service on the Big Sandy river. John, the other son, is traveling auditor for the B. & O. railroad, with headquarters at Baltimore. In their deep sorrow these people have the sincere sympathy of the citizens of Louisa.

James Hodgins, James Brown and Allen Cussel, of Martin county, were in Louisa a few days ago.

L. B. Ferguson, J. A. Shannon, Wm. G. Shannon, J. J. Johnson, John C. Burnett, J. A. and Chas. Abbott, were among those who came home to vote last Tuesday.

P. H. Loar left Tuesday morning for Denver, Col., where he will spend some time for the benefit of his health. From there he will go into New Mexico later in the season, where he expects to remain until spring.

STRONG TESTIMONY.

Three persons who have bought watches here lately said they found our prices to be less than those of dealers at other places, and that is why they made the purchases here. Our watch prices have always been down to the lowest notch. Recently an order was sent us from Alabama for a watch; another came from a point 255 miles distant. Watches are our "leaders". We now have a larger stock and greater variety than ever before. At small profits the stock must be "turned" often. Come in and help turn it and at the same time save yourself money. Conley's Store.

Bank at Blaine.

A State bank, with \$15,000 capital has been organized at Blaine, this county. It will be known as the bank of Blaine, and the Hon. H. H. Gambill, formerly a member of the Kentucky Legislature, was elected president. R. T. Berry vice president, and A. S. Conley, of Salyersville, cashier. A modern stone bank building will be erected and the bank will begin business January 1, 1904. I. C. Adair, of Fordsville, who is interested in a number of banks in Eastern Kentucky, assisted the home people in organizing this bank.

Great Gathering of Ky. Pastors.

In December last year, a Pastors' Sunday School Institute was held in Louisville, Ky., that attracted favorable comment all over America. About 500 pastors and prospective pastors were in attendance and ten states were represented. This year, December 15-18, it is to be repeated on a much larger scale. Major Lawrence, Int. Gen. Sec'y., Dr. H. Hamblin, Dr. B. W. Spillman, and Mr. W. C. Pierce, four of the most noted leaders and Sunday School experts of America will be the conductors. Besides these, the Institute will be addressed by the presidents of the three Theological Seminaries of the State, Dr. S. H. Green of Washington, D. C., will deliver a course of lectures at the same time as the Baptist Seminary and these will be free to all. In addition to this, The International Educational Committee, one of the most important Sunday School Committees in America, will hold a meeting here at that time, and we will also hear from these. This brings together, ten of our most noted Sunday School workers. Surely no pastor can afford not to come. But we want it clearly understood, that while the Institute is especially for pastors, all Sunday School workers are invited and expected.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the overfed millionaire is often paralyzed in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people and they suffer far worse torture than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for over thirty-five years. August Flower relieves the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is a very much overrated. The poor patient, and the rich patient, too, can do much better at home by proper attention to food, digestion, and a regular use of German Syrup. Free expectoration in the morning is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the gas, asthenia and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 25c; regular size, 75c.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. It is called kidney disease. Many sudden deaths are caused by it. Heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to develop, the kidneys become diseased and the blood is poisoned. The kidneys themselves break down and waste away cell by cell. Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is absolutely reliable to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both free of charge, sent by mail. Address Dr. Kilmer & Co., Binghamton, N.Y. When writing mention reading this generous offer in this paper.

Preventing Consumption.

In Article No. 5 of the Ohio Society for the Prevention of Tuberculosis, Dr. C. A. Probst tells in a general way of the treatment of the disease. The person afflicted should place himself in the hands of a trusted medical adviser, he says, and it is of the utmost importance that the treatment should begin at the earliest recognizable stage. He adds: "Consumption may begin in an insidious manner; a slight cough, loss of appetite, a little weakness and perhaps loss of weight. Such symptoms by no means always indicate tuberculosis, and may be due to other causes. But valuable time should not be lost in waiting for marked signs of the disease."

Once the disease is discovered, he says, there are three courses of treatment to select from—to seek another climate, to enter a sanatorium, or to carry out the fresh-air treatment at home.

Continuing, Dr. Probst says: "Certain climatic conditions are doubtless greatly favorable for the cure of tuberculosis. There is much less in climate, however, than was formerly supposed. For the most part it is simply a question of pure air; and pure air in Ohio is just as pure as the air in any other place."

"About the worst thing a consumptive can do is to leave home without medical advice, to wander about from one health resort to another, committing a thousand imprudences that completely annul any good that might have come from change of climate. One thing is to be said against change of climate. A person is usually obliged to remain in the climate in which he is cured."

The advantage of the sanatorium treatment, it is stated, lies in the excellent sanitary conditions and the daily routine, relieving the patient of all worry.

In talking of the home cure of the disease, Dr. Probst says: "It should be clearly understood that there is no drug cure for consumption. It is the natural forces of the body that destroy or imprison the germs of tuberculosis and heal the lungs."

"Nature tries to cure diseased lungs, and the wise physician aids her by fresh air, an abundance of nourishing food and a proper regulation of rest and exercise."

"The home treatment consists first in giving the patient, day and night, pure, fresh air. This can be found only out-of-doors and in rooms that can be thoroughly ventilated. The air of the best ventilated room never equals in purity the air out-of-doors. There need be no fear of catching cold. With a few weeks of hardening process there are but few patients who cannot be out of doors in all kinds of weather."

The next essential is as much nourishing food as can possibly be taken without causing indigestion. Consumptives usually have poor appetites, but they can nearly always digest and assimilate more food than they want. Milk and raw eggs between meals are usually beneficial.

A proper regulation of rest and exercise is equal in importance to fresh air or food, but is the most difficult to control. Usually consumptives want to take too much exercise. It is the regulation of rest and exercise that medical advice is most needed.

No one should expect to be cured of consumption in a short time. It requires usually about six months' stay in a sanatorium for the disease to be arrested. This does not always mean that the disease is cured. This will take a year or more; and the consumptive must ever after strictly observe hygienic rules of living or he will invite a return of the disease."

Where a room has been occupied by a consumptive, Dr. Probst says it should be given a thorough cleaning with soap and hot water and the floor, side walls, for a height of six feet, window ledges, etc., should be wiped with cloth wet with corrosive sublimate, one drachm to a gallon of water. It should then be aired three or four days. As an additional precaution it could be fumigated with formaldehyde or sulphur. The Board of Health may be called upon to do this under the law.

Millard Adkins, who lives on Brush creek, in Wayne county, W. Va., was probably fatally injured Sunday afternoon by being struck on the head with a club by Stewart Price, a neighbor boy. Adkins was walking home with a couple of young ladies and Price, being jealous, walked up behind his rival and dealt him a stunning blow which felled him to the ground with a crushed skull. Price immediately left the neighborhood and at last accounts had not been captured.—Ex.

Over in Ohio, opposite Greenup, reside three maiden women, aged eighty, eighty-two and eighty-four. They own a small farm of forty acres and were born and reared thereon. For the past sixty years there has never been a man connected with the house or farm in any capacity. Their first serious trouble began a few weeks ago one of them fell, breaking an arm; another received a severe stroke of paralysis, and the third is down with typhoid fever. While they have always been very peculiar in disposition, they have been highly respected, and as they are now past helping themselves, their neighbors have gathered and garnered their crops and are assisting them in many ways. A young married couple has been employed to move into part of the house and take care of them. The old women are named Baccus.

Frank Vance and Solomon Meadows, two young men living on Island creek, in Logan county, were arrested and placed in the county jail at Logan W. Va. charged with being the murderers of the Syrian peddler, on Main Island creek, not far from the home of "Devil" Anse Hatfield, a few days ago.

Suspicion pointed to the fact that these young men were the guilty parties, as both had been seen in that community with Winchester on the day of the murder, and the unfortunate peddler had a bullet hole through the back of the head, and his brains had been beaten out with a barrel of a gun. The peddler had quite a sum of money and this was taken as well as all of his wares which were of value. "Devil" Anse led the posse which effected the capture of the murderers, and he pursued them for more than thirty miles. He first traced them to Naugatuck, in Mingo county, and learned that they had crossed the river at the point into Kentucky. "Devil" Anse and his posse went into Kentucky and spent one day and night and got so close on their trial, that the

The reappointment of Rev. J. B. Yoak, presiding elder of the Preston Church district, is a deserved compliment. He has been successful in the ministry wherever he has gone, which only shows what push and energy will do for a man.—Grantsville News.

Mender Polley, aged twenty-eight, of Knott county, approached John D. Fugate, aged thirty-four, in a store at Olathe, and it is alleged, opened fire at Fugate at close range. Fugate was unarmed. Polley fired four shots in succession, when Fugate wrested the revolver from his hand, striking him across the forehead three times, inflicting probably fatal wounds.

Rev. J. D. Garrett, of the M. E. Church, South, has been assigned to the Huntington Circuit. His work will include one appointment in the city of Huntington and five in the country. He was originally given work in Kentucky, but on account of the health of his wife he couldn't leave home. By the present arrangement he will be enabled to spend all the time at home when not employed on the circuit.

Rev. D. H. Reid, former pastor of the M. E. Church, South, this city, has been appointed to Fairview Station, in Marion county. The work is in the heart of the rich, oil fields, has a large and growing congregation, modern church and parsonage, for which is furnished free gas for lighting and heating. They have endeavored themselves to all our people both in their church and out who wish them "God speed" in their new field of labor.—The State Gazette.

From an interview in the Cincinnati Enquirer with Hon. Walter S. Harkins, of Prestonburg, we take the following: Judge Harkins says there is no county in Kentucky being so rapidly developed as Floyd County. "Railroads are being extended through the county and new coal mines are being developed in every section. A number of fine oil wells have been shot there, and I understand the oil found in Floyd county compares favorably with any ever produced in the Pennsylvania fields. The Standard Oil Company has become interested in the work, and is shipping a great deal of material there to get oil away."

Greenup, Ky., William J. Stephens, formerly of Lynn, this county, but now of Titusville, Pa., is forging to the front in a most surprising manner as a stove and lumber dealer. A few years ago in the pursuit of his business, he became entangled in some manner with the great Standard Oil Company, and became out winner in the end. From that time on "Bills" as he is most familiarly known, has had smooth sailing, and is now a magnate himself. He operates principally around Norton, Va., and built a railroad from that place to a small town called Morgan, which was afterwards sold to the Morgan syndicate.

Mr. Stephens formerly had a factory at Louisa.

John W. Wright, of Boone's fork, has just succeeded in capturing Morgan T. Reynolds, aged twenty-eight, alleged captain of the famous kuklux gang who terrorized the Boone's Fork section in Letcher county in the spring of 1901, and murdered Mrs. Jimmie Hall, an old woman, and her son, which brought about the calling out of the militia. At that time fifteen members of the kuklux gang were arrested, but Reynolds disappeared.

County officials offered \$3,000 for his apprehension, and, despite the fact that every nook and corner of the mountains were searched, no trace of him could be found. Yesterday Wright found Reynolds on Long Fork creek, arrested him and left immediately for Pineville, where he will go on trial. The kuklux cases were transferred to Pineville in November, 1901. Isaac Potter, Jr., is now on trial. Eight of kuklux members are serving life sentences in the Kentucky penitentiary. Reynolds was once a prominent teacher of Letcher county.

Don't Want Mixed Schools.

The abominable mixed schools system of Ohio is obnoxious to the colored people, whether it is to a majority of the whites over there or not. At Ironton they have started a movement for separate schools. What better evidence do the equality-slobbering demagogues want of the absolute failure of their efforts? Mixed schools have had a test of several years in Ohio. It has brought about a number of intermarriages of the races, but the movement at Ironton shows how unsatisfactory and unnatural the system is, even to the inferior race.

The Ironton Register says: "The advisability of mixed schools has been a debatable question in this community ever since the separate schools for colored children were abandoned some years ago, and it has remained for the colored people themselves to advocate a return to the former system of separate schools."

"To this end a number of the leading Afro-American citizens of Ironton have placed in circulation a petition to the Board of Education, asking that a separate school building be erected for the children of colored residents. It is understood that the proposition has the almost unanimous support of our colored people, and that their wishes in the matter will be acceded to by the school board when the matter is formally brought to their attention."

He Could Hardly Get Up.

P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold by Louisa Drug Co.

Anxious Moments.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. Paine's Celery Compound

CURES RHEUMATISM.

Rheumatism, which does its terrible work in the muscles, joints, and tissues, is caused by acid which gathers in the blood. To get rid of this poisonous acid which produces the irritations, pains, agonies, inflammations, and swellings peculiar to rheumatism, Paine's Celery Compound should be used without delay. No other medicine gives such prompt cheering, and happy results. It is the only medicine that prevents a return of the dreaded disease. Paine's Celery Compound braces the nerves, the blood is quickly cleared of all irritating poisons, tissue and muscle are built up, and the digestive organs perfectly toned. Do not treat with indifference the slightest rheumatic symptoms; the early use of Paine's Celery Compound will save you weeks and months of suffering. Mr. S. D. Conway, St. Louis, Mo., was permanently cured by Paine's Celery Compound after repeated failures with other medicines and physicians; he says:—"I am 64 years of age, and have lived in St. Louis 27 years, and all this time with the exception of three years, I have served in the Engineers' Department as Inspector. Last winter I contracted rheumatism and was laid up. I tried all remedies and doctors, but all failed until I struck Paine's Celery Compound, which has made a permanent cure in my case. I have recommended it to many, and they have used it with the same result."

"Which I Now Hold"

The man who wrote these words couldn't have expressed the sense of possession more forcibly. The holding was a paid-up fifteen-payment life, fifteen-year distribution policy in The Mutual Life Insurance Company of New York and Mr. Elbe Walter, of Clarksville, Del., had just received a dividend of \$195.98 in cash. He was evidently very happy over it for he says (besides acknowledging the dividend):

The net cost of the paid-up policy of \$100 which I now hold, and which I have paid for in fifteen years, is only \$440.00. The balance of the balance of the policy is about my policy to that the larger the dividend, the more I get. And that during the balance of my life there is nothing more for me to pay.

(From Wilmington (Del.) News, Nov. 21, 1904.)

In writing for terms for a policy of this kind, state what you would like to receive in cash at the end of limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age.

Stepped Against a Hot Stove.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the
